

Cytiva (Global Life Sciences Solutions) US origin product families

10% on non-US origin product families (includes EU, UK, APAC ...);

30% on China origin products; And

25% on Canada origin products.

“no tariff surcharge” on the following product families:

Filtration:

- o Virus filters
- o Sterile filters
- o Prefilters
- o Air & gas filters
- o Filter sets (filter assemblies)
- o Hollow fiber filters
- o TFF cassettes
- o TFF skids / instruments

Single-use consumables:

- o Bioreactor bags (stirred tank and rocking)

Mixing bags

- o Storage bags
- o Transfer sets
- o AKTATM flow kits (excl AKTA ready 450 flow kits)

Single-use hardware:

- o Stirred-tank bioreactors

Cell culture:

- o Cell culture media

- o Cell culture serum (US source)
- o Buffers

Lab consumables:

- o Lab filtration devices (legacy Pall)

Equipment services:

- o Spare parts of US-made instruments

“10% tariff surcharge” on other non-US origin product families: (Includes EU, UK, APAC ...)

Filtration:

- o Depth filters
- o Connectors (Presto)
- o Sterile filters (certain SKUs)
- o Air & Gas filters (certain SKUs)
- o Newform
- o Filter housings
- o Integrity testing instruments

Cell culture:

- o Microcarriers
- o CC Serum (non-US sourced – AU or NZ)

Chromatography & downstream:

- o Chromatography resins (all scales and formats)
- o Chromatography equipment (columns, skids, both custom and standard designs)
- o In-line conditioning and in-line dilution instruments
- o Resins mixer instruments

Single-use hardware:

- o Mixers
- o Rocking bioreactors (Wave, Xuri)

Single-use consumables:

- o Mixing bags (certain SKUs)
- o ÄKTA ready 450 flow kits only

Lab equipment:

- o Biacore (equipment & consumables)
- o Lab-scale ÄKTA instruments (all models)
- o Imaging instruments

Lab consumables:

- o Lab chromatography columns (resins)
- o Magnetic beads (SeraMag)
- o Lab filtration products (Whatman)
- o Western Blotting consumables
- o Diagnostic membranes & reagents

Medical:

- o All products (OEM, hospital and healthcare)

Cell & Gene therapy:

- o iCellis adherent bioreactors and consumables
- o Sefia instruments and consumables
- o Sepax instruments and consumables
- o Xuri instruments and consumables
- o Density gradient media
- o Oligosynthesis instruments
- o Plasmid select chromatography resins

Equipment service parts:

- o Spare parts for all non-US origin instruments

“30% tariff surcharge” China origin product families

Cell & Gene therapy products:

- o mRNA Primer support

Lab consumables:

- o Lab filtration (Whatman from Tonglu, China)

“25% tariff surcharge” - Canada origin product families:

Fill & Finish technologies:

- o VanRx fill & finish cells
- o Fill & finish consumables

Nanomedicine products:

- o Lipid nano particles (PNI)

Equipment services parts:

- o Spare parts for all Canadian origin instruments
